AEROYACHT® ALPHA 42'

The ALPHA 42 is a beautifully designed, brand new cruising catamaran with highly innovative features usually associated with high end custom builders. The Alpha 42 catamaran is a true reverse-engineered world yacht. Designed by an expert team of offshore sailors, designers, naval architects and rig specialists. Multiple design inputs from groups such as live aboard cruisers, vacationers as well as charter operators, commercial fishermen and first time buyers were considered and incorporated into the yacht's DNA. The result is the Alpha 42.

TIMELESS DESIGN
DNA OF A FUTURE ICON

The Alpha 42 combines beauty with intelligence. Built in New York by Alpha-1 Composites this all new design feels at home everywhere - from a busy Mediterranean harbor to a South Seas lagoon. The Alpha 42 catamaran blends into her environment, but looks special. While respecting the elements this next-gen cruising yacht incorporates the best features and makes them even better.

- 360 degree views whether sitting or standing
- u-shape chef's galley oriented and open to cockpit
- 63' air draft, US-Intercoastal capable
- highest in class 34" bridgedeck clearance

WIDE SUN DECKS - FULLY PROTECTED COCKPIT
INSPIRING LIVEABOARD COMFORT

- same level cockpit and saloon
- large hull windows with sea views
- wide wood composite cabin sole provides true loft comfort
- forward facing inside navigation steering station

- integrated forward trampoline lounge, seating for six
- optional helm-windscreen/ folding bimini for full weather protection
- wave piercing bows for enhanced pitch reduction and performance
- solo control helm station with all running rigging lead back to skipper
- Yanmar engines separate from living accommodations

DISCREET WORLD TRAVELER
AS COMFORTABLE IN THE CARIBBEAN AS SPITZBERGEN

DYNAMIC DELIGHT
NO COMPROMISE MODERN THOROUGHbred

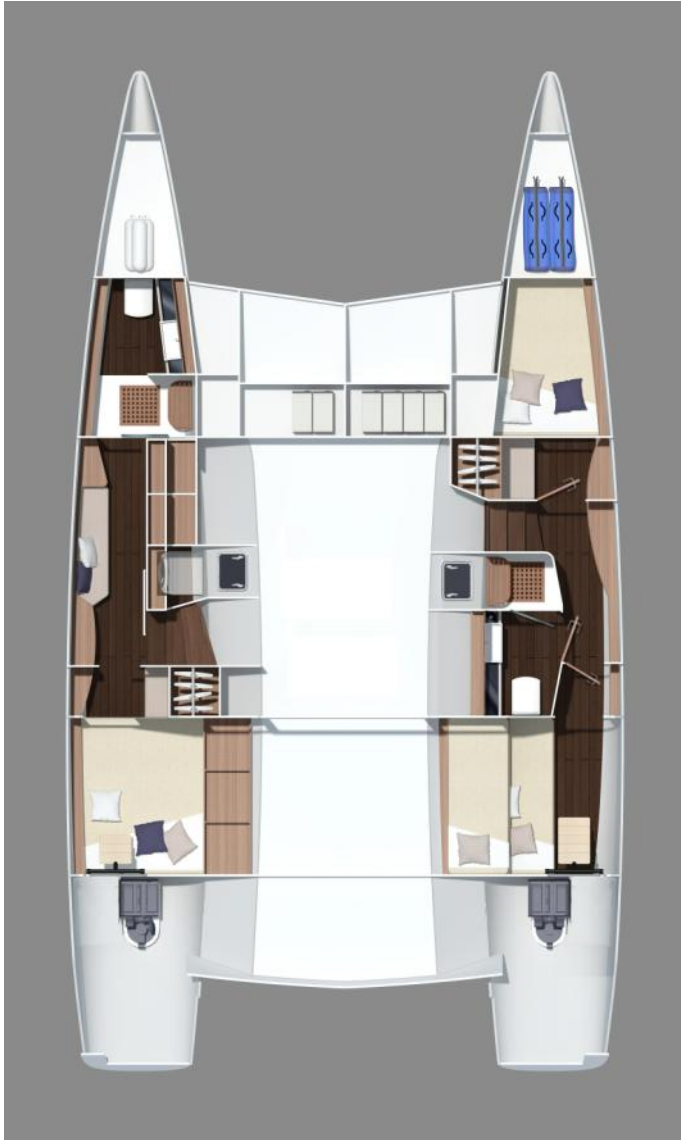

We created a dynamic cruising machine. For us performance is not only how fast you can sail. Emotions are our main design objective, sailing sensations that only the Alpha 42 can provide. With considerable agility and dynamics, but always with stability and comfort - even in F10 conditions. We achieve these goals with decades of learning from customer feedback and the experience gained from many thousands of offshore sailing miles. On the Alpha 42 you will enjoy direct feedback steering (no hydraulics), practical sail handling layout and an efficient, easy to handle yet powerful grand-prix style rig.

- bow and stern collision compartments, 6 watertight bulkheads
- Vynilester Nidacore honeycomb construction (no balsa)
- monolithic bilges for impact protection and strength
- easy and safe, solo- sailing and anchoring systems
